PROVISIONS CONCERNING QUALITY – Minimum requirements (CLEAN) – Jelly exudates

TO BE ILLUSTRATED:

- clean, practically free of any visible foreign matter

- Clean:
 - Illustration #. **Visible soil – Not allowed.**
 - Illustration #. **Dirty/Dust– Not allowed.**
 - Illustration #. **Gravel presence – Not allowed.**
 - Illustration #. **Embedded grit– Not allowed.**
 - Illustration #. **White residues – Not allowed.**
 - Illustration #. **A few drops of dried jelly exudates on the fruit – Not allowed.**
 - Illustration #. **Deposit of dried jelly exudates – Not allowed**
 - ***Explanatory note on “jelly exudates”** (to be included in the text of the brochure at the clean minimum requirement part):

Jelly exudates are not considered foreign matter in courgettes. However, these exudates can also detract from commercial presentation and acceptance of courgettes. Thus, courgettes must be practically free of visible dried exudates. Wet jelly exudates are not acceptable. Deposits or drops of dried jelly exudates in courgettes are only acceptable as exceptional. Its presence would be also according the quality tolerances of the standard. In this sense, a 1% by number or weight of courgettes with presence of dried exudates will be accepted for Class I and the 10% in the case of Class II.

PRESENTATION OF SECOND DRAFT OF THE PRELIMINARY DRAFT TEXT AND NEW PHOTOGRAPHS

FINAL CONCLUSIONS

We have identify that our preliminary draft of the Courgettes Brochure will include:

- Around 60 Illustrations.
- 6 Explanatory notes.

This presentation of the second draft of the preliminary draft text and photos would be posted on O.N.E. for all Delegations interested on participating in the elaboration of the new Courgettes Brochure.

The deadline for Delegations in order to submit comments and photos to this presentation will be 15th of August.

Please, we prefer to receive your comments by email to:

- Paula de la Cruz pcruz@economia.gob.es, and
- Daniel Cascales dcascales@economia.gob.es , also
- In CC the OCDE: Aurelia.NICAULT@oecd.org

(However if you prefer to do it via O.N.E., please, notify us by email with link to O.N.E. In this case, we beg for the support of the OCDE in order to create the post including us to received notifications on each publication inside the post.)

NEXT STEPS:

Spain will collect all the photos and comments received and will elaborate the revised second draft of the preliminary draft text of the Courgettes Brochure and update this presentation of photographs for discussion based on the outcome of this Produce WG meeting (Zoetermeer) and submitted comments. The Draft and Presentation will be presented for discussion to the 85th Plenary Meeting in 2026 (date to be confirmed). Thus, the next working document will also include the comments and/or photographs sent by other delegations.
