Halil İbrahim Karataş
Commercial Counsellor
Embassy of the Republic of Türkiye
197 Wurtemburg Street
Ottawa, ON K1N 8L9

September 16, 2025

Dear Halil İbrahim Karataş:

This refers to the notice dated May 12, 2025, informing you that, pursuant to subsection 31(1) of the *Special Import Measures Act* (SIMA), investigations have been initiated respecting the alleged injurious dumping of steel strapping originating in or exported from the People's Republic of China (China), the Republic of Korea, the Republic of Türkiye, and the Socialist Republic of Vietnam, and the alleged injurious subsidizing of steel strapping originating in or exported from China.

The preliminary phase of the investigations is now complete. The evidence available to the CBSA indicates that Steel Strapping from China, the Republic of Korea, the Republic of Türkiye, and the Socialist Republic of Vietnam has been dumped, and that steel strapping from China has been subsidized. Therefore, on September 16, 2025, the CBSA made preliminary determinations of dumping and subsidizing respecting these goods pursuant to subsection 38(1) of SIMA.

A *Statement of Reasons*, which summarizes the information on which these decisions were based and which describes, in general terms, the future activities related to the investigations, will be available within 15 days on the CBSA's website at www.cbsa-asfc.gc.ca/sima.

The investigations are continuing and the CBSA will make final determinations or terminate the investigations by December 15, 2025.

On July 10, 2025, the Canadian International Trade Tribunal (CITT) determined that the evidence disclosed a reasonable indication that the dumping of steel strapping originating in or exported from China, the Republic of Korea, the Republic of Türkiye, and the Socialist Republic of Vietnam, and the subsidizing of steel strapping originating in or exported from China are threatening to cause injury to the domestic industry. The CITT is now conducting an inquiry into the question of injury and is expected to issue its final decision by January 14, 2026.

…/2

Pursuant to subsection 8(1) of SIMA, provisional duties are payable on the dumped and, if applicable, subsidized subject goods that are released from the CBSA during the period commencing September 16, 2025, and ending on the earlier of the day the investigations are terminated, the day on which the CITT makes an order or finding, or the day an undertaking is accepted. During this period, referred to as the provisional period, the importer of such goods shall pay, or cause to be paid, provisional duties or post security in the prescribed form.

The amount of provisional duties payable on imported goods will be equal to the estimated margin of dumping and the estimated amount of subsidy. The various rates of provisional duties are indicated in the **Attachment** of this letter.

Should you have any questions regarding this matter, please contact Shawn Ryan, A/Assistant Director, SIMA Investigations Division at 909-943-9978, or by email at Shawn.Ryan@cbsa-asfc.gc.ca.

Yours truly,

Sean Borg
A/ Executive Director
Trade and Anti-dumping Programs Directorate
