

Bonded Warehouse Azerbaijan

Port of Baku is a 600 million USD, government backed project to relocate from Baku City to Alat. This is a new facility with big expectations, to become the hub of transportation and commerce within the Caspian region.

Within this port there is the first bonded warehouse in Baku, demonstrating the commitment and vision of the government to global trade and making Azerbaijan a truly significant commerce hub for the Caspian.

With strong government support, this is of national importance to Azerbaijan in both commerce and prestige, being the first bonded area within the Caspian.
